

A smarter approach to managing health care costs

Excellus BlueCross BlueShield is committed to reducing health care costs while improving patient outcomes. Offered through a partnership with Express Scripts by Evernorth, SafeGuardRx provides employers access to automatic savings and enhanced medication discounts—at no additional cost.

How SafeGuardRx benefits businesses:

Automatic shared savings

Self-funded employer groups that accumulate at least \$1,000 threshold in net savings will receive an annual credit applied to their weekly claims billing to weekly claims billing. The savings come from early discontinuation credits and enhanced discounts on select medications

Lower prescription costs

Access to enhanced discounts and early discontinuation credits on high-cost medications

No action required

SafeGuardRx is automatically implemented at no cost to you

Improved health outcomes

Employees benefit from adherence support and engagement tools to manage chronic and complex conditions, improving their health and reducing costs

Conditions covered

SafeGuardRx includes specialized support for:

- Inflammatory and atopic conditions
- Multiple sclerosis
- Oncology care
- Diabetes care
- Pulmonary, neurological, cardiovascular and rare conditions

Who is eligible?

- Fully insured plans
- Self-funded plans
- Article 47 plans
- Minimum premium plans

How it works

Automatic enrollment

SafeGuardRx is applied to eligible groups based on their formulary

Automatic shared savings

If a self-funded group (including minimum premium and article 47 groups) meet the \$1,000 threshold, a credit will be applied

Pharmacy claims only

The program applies exclusively to prescription medications
