

Save with SaveOnSP

Excellus BlueCross BlueShield provides an innovative specialty coinsurance assistance service known as SaveOnSP, offering financial relief to employers and their employees for certain specialty prescription drugs. In continuing efforts to combat the rising costs of specialty medications, eligible plans¹ will take advantage of this service at no extra charge².

By participating in this service, your employees will receive select specialty medications at zero cost share (\$0). The SaveOnSP service is available only through Accredo Specialty Pharmacy with no grace fills at retail.

Seize the savings

The SaveOnSP service takes available manufacturer assistance dollars out in the market and provides financial support to employers and employees. This is done in part by artificially inflating the employees' standard coinsurance to the maximum amount of assistance for the select specialty medications. Once the claim is adjudicated, the manufacturer assistance dollars will pay in full for the employees' portion of the medication cost³. Your organization will experience savings as well through the difference in coinsurance amounts. These savings can range from \$600-\$7,500 per specialty prescription, giving your group the freedom to invest those extra funds in the things that matter most for your business.

Here's what's covered
